Tobruk University Journal of Engineering Sciences (TUJES)

Editorial Board

The editorial board of the TUJES journal consists of a group of experts and specialists with research experience in various fields of engineering sciences. The role of the editorial board is to advise and support the editors in addition to following up on the quality of the journal. The journal editorial members are selected and chosen from inside and outside Libya, and from a variety of engineering fields that fit the journal's disciplines.

Editors

1. Dr. Eng. Fatma S. Salem, Editor-in-Chief, Electrical Engineering Department, Faculty of Engineering, University of Tobruk, Libya. BSc in Electrical Engineering from Omar Al-Mukhtar University, Libya. MSc in Communication Engineering from University of Colorado Denver, USA. Ph.D in Communication and Information Engineering from Polytechnic University of Hauts-de-France, France. Research interests include communication systems, wireless networks, signal processing, and information theory.
